

**A**  
STYLE

# A new home, where to start with your design?

**Bjorn van  
Dierendonck**

Metropolitan, modern and contemporary are just a few of the interior styles you could choose from. But which style do you prefer? To make sure your interior reflects your personality and the style you like, it's best to ask the help of a diplomate interiordesigner. But still, we would like you to learn the basics.

It's important that your indoor and outdoor fits perfectly together. To make sure it does, it's important to start with the requirements you want for the room. Do you like a modern home with design furniture and little decoration or do you prefer cosiness with lots of furniture and decoration?

Make sure all the materials and colors complement each other. Like the color of the couch, the materials of your dining table and the lighting objects. To make sure the daylight comes as you want, you should think about the window decoration. Ask yourself if you prefer outdoor sunscreens, wooden shutters or curtains for example.

In- and outdoor are constantly connected, let them blend nicely into each other. You can get this done by working with similar basic colors. There are thousands of possibilities to turn your house into a home. If you need advise or you are searching for in- and outdoor furniture, curtains, decoration, wallpapers, lighting and more, we are glad to help you. Don't hesitate to contact us or visit our showroom.
